

Immufen™

Proprietary, clean, and synergistic ashwagandha and curcumin complex with FenuMat®. Clinically substantiated for seasonal immune support.

Clinically substantiated for seasonal immune support

Proprietary FenuMat® technology

Unique co-delivery of synergistic bioactives

Clean label and water-soluble formulation

Responsibly sourced with full traceability

Dosage of 400 mg once or twice per day

Immufen™ is a novel combination of the rhizomes/roots of *Curcuma longa* and *Withania somnifera* that work collectively for seasonal wellness. Each extract is standardized to their potent bioactives, withanolides, and curcuminoids, respectively. The combination is then complexed with FenuMat® to ensure a consistent release of these bioactives to the intestines, enhancing overall bioavailability. With a compelling clinical study behind it (under publication), Immufen™ supports nasal, respiratory, and immune health during times of seasonal change while simultaneously promoting restorative sleep, improved mood, and energy levels. Discover the power of embracing seasonal wellness and support nasal, respiratory and immune health with Immufen™.

CLINICALLY SUBSTANTIATED HEALTH OUTCOMES

- Supports nasal, respiratory and immune health during seasonal changes
- Enhances mood, energy, and vitality
- Promotes restful sleep

APPLICATIONS

Tablets and capsules

Beverages and powders

Gummies and chews
