

ProcynCi®

Patented and clean cinnamon bark extract with a unique bioactive composition. Clinically substantiated to support blood glucose management.

Clinically substantiated to support blood glucose management

Clean label and water-dispersible formulation

De-coumarinated cinnamon extract

Responsibly sourced with full traceability

Low dosage of 250 mg once or twice per day

ProcynCi® is a patented and unique cinnamon bark extract that is standardized to deliver potent bioactives known as procyanidins. Produced using hydroethanolic extraction methods, ProcynCi® delivers a breakthrough water-soluble de-coumarinated powder. With three compelling studies behind it, ProcynCi® demonstrates 3x the efficacy, when compared to other conventional cinnamon extracts, for blood glucose management while simultaneously scavenging free radicals to minimize oxidative stress. Discover the promising prospects of nature's powerful metabolic solutions with ProcynCi®.

CLINICALLY SUBSTANTIATED HEALTH OUTCOMES

- Supports blood glucose management
- Scavenges free radicals to minimize oxidative stress
- Promotes metabolic wellness

APPLICATIONS

Tablets and capsules

Beverages and powders

Gummies and chews
